The School of Medicine operates a number of core facilities that offer both advanced technologies and equipment. Facilities are housed in several locations including The Eccles Institute of Human Genetics, Huntsman Cancer Institute, Biomedical Polymers Research Building, Emma Eccles Jones Medical Research Building & the John A Moran Eye Center to name a few. These facilities are open to public access with the exception of patient care areas and research labs. University Health Care, (UHC) includes: University Hospital and 10 community health centers.

UHC provides care to 10% of the U.S. from the geographic area it serves including Idaho, Wyoming, Montana, Nevada and Colorado.

Specialized services include:
- The Intermountain Burn Unit
- Trauma 1 Emergency Center / 4 Air Med helicopters
- Hazardous Material Response Center
- High Risk Pregnancy & Fertility Clinic
- Newborn Intensive Care
- Clinical Neuroscience Center

Huntsman Cancer Hospital (HCH) & Primary Children’s Medical Center (PCMC), The Veteran’s Administration (VA), John A. Moran Eye Center (JAMEC) and other local facilities are affiliated with the UHC and the SOM for educational purposes.

School of Medicine Notes:
- Approximately 400 medical students & 600 residents are trained annually.
- 90% of all Utah physicians received all or part of their training at the U of U SOM.
- With almost $160 million in annual research funding, The UUSOM has earned the reputation among physicians and scientists as the place to pursue the development of technologies, treatments and cures.

Directions from University Hospital to:
HCl, HCH & Clinical Neurosciences Center: Take the visitor elevators to the 3rd Floor. Turn left out of the elevators and follow the signs.
JMAEC & PCMC: Use the parking terrace bridge on the A Level of the hospital near the cafeteria.

Eateries:
Health Sciences Education Building:
The Bistro Café @ The Hub - 1st Floor
Mon - Friday 7:00 am to 2:30 pm

University Hospital:
Wasatch Spectrum Cafeteria - A level
Mon - Friday 6:30 am to 10:00 pm
Sat - Sunday 8:00 am to 8:00 pm

Starbucks - 1st floor; 24/7

Huntsman Cancer Institute:
The Point - 6th Floor
Mon-Friday 7:00 am to 2:00 pm

Huntsman Cancer Hospital:
The Point Bistro - 6th Floor
Mon - Friday 7:00 am to 8:30 pm
Sat - Sunday 11:00 am to 7:00 pm

Primary Children’s Medical Center:
Rainbow Cafe - 1st Floor, North Entrance
Daily, 6:30 to 10:00 am; 11:00 am to 4:00 pm; 5:00 to 10:00 pm
Commissioned art work

a. The Cascade by Ray King: This 43 foot sculpture hangs in the Atrium. 2400 pieces of 2 inch thick glass are connected to create a waterfall of color and light.

b. The Four Humors by Doug Soelberg: This stained glass piece was inspired by the colors of the 4 humors; blood, choler, phlegm and melancholy. The history of medicine from the time of Socrates adds to it’s inspiration.

c. The History of Medicine in Utah: Local Artist Galina Perova and Alexander Charin, created this 90 Foot acrylic on wood mural that focuses on the emerging healthcare environment not the personalities who shaped it.

d. Slumped Glass Lights: Nancy Braver sculpted 4 identical LED light fixtures that are suspended at the south end of each floor where small lounges are located. The lights are programmed to change gradually in each part of the sculpture, with moments where all four synchronize making it a beautiful experience to view from outside the building.

The Spencer S. Eccles Health Sciences Library

The health sciences has been awarded the regional medical library for the Mid-continental Region in the National Network of Libraries of Medicine by the National Library of Medicine.

Unique features include:

- Medicine Garden
- Works of art located throughout the interior and exterior of the facility.
- Enclosed walk-way to the HSEB
- Media resources, small group rooms and personal computers are available throughout.
