CCTS KL2 Mentored Career Development Scholar Award

Eligibility Determination Form

The Utah Center for Clinical and Translational Science (CCTS) KL2 Mentored Career Development Scholar Award is a competitive award. Contingent upon continued NCATS CTSA funding, it is expected that only 1 application will be funded from the November 2017 announcement. To be competitive, it is recommended that applicants have reviewed and understand the eligibility criteria.

To determine if you are eligible, please answer the following questions. If you answer YES to all questions, you are eligible to apply. If you have answered no to one or more of these questions, you are not eligible to apply.

- [ ] Yes  [ ] No Are you able to show evidence of performance in clinical and translational science and a commitment to continue a career in clinical and translational science to advance health?

- [ ] Yes  [ ] No Can you devote 75% FTE (9 person months) to research and career development activities during the 2-year award period? For surgeons, can you devote 50% FTE (6 person months) to research and career development activities during the 2-year award period?

- [ ] Yes  [ ] No At the time of award, will you be a U.S. citizen, non-citizen national, or be able to provide legal proof of lawful admission for permanent residence? (Please note: individuals on temporary or student visas are not eligible)

- [ ] Yes  [ ] No At the time of award, will you hold a junior faculty appointment (instructor or assistant professor) at a CCTS partner institution, which includes the University of Utah, Intermountain Healthcare, Utah Department of Health, and Veterans Affairs Salt Lake City Health Care System?

- [ ] Yes  [ ] No Have you received a MD, PhD, DO, PharmD, DNP, DNS; an equivalent doctoral level health science degree; or an equivalent doctoral level degree in a field that interacts with healthcare from an accredited domestic or foreign institution?

- [ ] Yes  [ ] No Are you within 5 years of completing your post-doctoral or clinical training?

- [ ] Yes  [ ] No Do you confirm that you have never been a principal investigator or equivalent on an NIH research project grant (R01, R03, R21, U01, U10), a subproject of a program (P01) or center grant (U54), or equivalent Public Health Service (PHS) or VA research grant awards?

- [ ] Yes  [ ] No Can you demonstrate both a long-term dedication to improve clinical care as well as a good relationship between planned training and short- and long-term career goals?

- [ ] Yes  [ ] No If your research involves human subjects, human specimens, and/or human data, will you have submitted your IRB application and be able to provide proof of IRB submission or approval with your KL2 online application?
