# PLEASE DO NOT . . .

(you know who you are!)

- Report by email—not using the rotation form we have sent. We need all the rotation forms back to send to our Govt. Accounting Office. Report everything for the month on the rotation form we send. An email clarification of something is fine, but we also need the form.
- Change dates on the form to eliminate weekends or vacations. Weekends are part of a rotation block. Vacations are part of a rotation block. We must report 365 days of rotations. Weekends and vacations are time taken FROM a rotation block.
- Leave “electives” blank. We need information on all elective rotations.
- Fail to indicate accurate actual rotation locations. Do not report UH if the rotation is at UOC or Brighton Ski Clinic. Do not report VAMC if the resident was not there. We need to know the resident’s actual location.
- Send information late. Please send by the date we have requested and include all information for that month. Late reporting (we have received vacation reports up to 6 months after the fact) will negatively affect both the hospital billings and the cost report.

# LOCATION, LOCATION, LOCATION!

The VA rotations are a particular source of concern. Look at these examples of imminent problems with the cost report.
