I. PURPOSE:
To outline the process of payment of stipends to residents and fellows.

II. POLICY
All bills to any of the affiliated hospitals for resident and fellow stipends will be initiated and collected by the Office of Graduate Medical Education. This will insure that the hospitals will be paying a uniform daily rate based on level of pay, and that they are also contributing their fair share of benefits for the housestaff.

III. PROCEDURE:
Residents will normally be paid through a University Hospital account under the control of the Director of Graduate Medical Education. The purpose is to give that office, and the GME Committee, clear information on the sources of funding for all residents.

Special agreements may be worked out with the GME Office to have monies collected from the hospitals credited to individual department development funds if appropriate. This is to insure that University Hospital is not paying for stipends for residents who are at other hospitals.
