I. PURPOSE:
ACGME requires that there be an affiliated hospital committee. The committee is charged with reviewing and approving residency education issues and common ACGME requirements.

II. POLICY:
The Affiliated Hospitals Committee is made up of an administrator and the Director of Medical Education from each affiliated hospital, the Dean of the School of Medicine or his designee, and representatives from the Housestaff Association. The Chair of the Affiliated Hospitals Committee is the Vice President for the Health Sciences or his designee.

III. PROCEDURE:
The committee meets annually to review administrative policies and uniform implementation of required programs, and by consensus arrive at consistent recommendations related to the programs administrative aspects for the total Affiliated Hospitals System.

Representatives of each affiliated hospital are charged with disseminating the information to its organizations’ medical staff.
