Therapeutic Endoscopy Course 2010

Brigham & Women's Hospital and The University of Utah School of Medicine

We invite you to join us for a comprehensive overview of major advances in Therapeutic Gastrointestinal Endoscopy to be held from March 12-14th, 2010 at the Grand Summit Hotel and Conference Center, Park City, Utah. Take advantage of this cutting-edge educational program in the beautiful Wasatch Mountains.

Course Description

This course focuses on the role of endoscopy and endoscopic surgery in the diagnosis and treatment of a wide variety of gastrointestinal, biliary and pancreatic disorders. It is designed for gastroenterology practitioners and gastrointestinal endoscopists, fellows, GI mid-level providers, general and gastroenterology fellows and interested nurses. The course will also be a program directed specifically for GI nurses and technicians. Session will cover on-going advances in the field of therapeutic endoscopy, difficult clinical problems and the roles of new techniques will be covered using lectures, video, hands-on demonstrations and live endoscopy. This course is taught by nationally and internationally recognized experts in the field of therapeutic endoscopy. This year’s course continues University of Utah and Brigham’s Gastroenterology Faculty and other invited experts in an informal atmosphere that invites audience participation.

Practice Gastroenterologists, Therapeutic Endoscopists, Fellows, Physician Assistants, Nurse Practitioners, GI nurses and Technicians.

Educational Objectives

1. Learn the latest interventional techniques in therapeutic endoscopy
2. Understand the latest luminal patency techniques for the entire GI tract
3. Describe the latest techniques in tissue ablation & tumor therapy
4. Demonstrate in hands-on manner the latest techniques in therapeutic endoscopy
5. Learn the role of advances in imaging in therapeutic endoscopy

Continuing Medical Education
