BIBLIOGRAPHY

Original Publications

7) Spitzer KW and Hogan PM: The effects of acidosis and bicarbonate on action potential repolarization in canine cardiac Purkinje fibers. J Gen Physiol 73:199-218, 1979

8) Spitzer KW and Walker JL: Changes in liquid-junction potential following chloride replacement in cat papillary muscle. Pflügers Arch 382:281-284, 1979

17) Bridge JHB, Spitzer KW and Ershler PR: Relaxation of isolated ventricular cardiomyocytes by a voltage-dependent process. Science 241:823-825, 1988

21) Bridge JHB, Smolley JR and Spitzer KW: The relationship between charge movements associated with I\textsubscript{Ca} and I\textsubscript{Na-Ca} in cardiac myocytes. Science 248:376-378, 1990

29) Xu P and Spitzer KW: Na-independent Cl\textsuperscript{-}-HCO\textsubscript{3}\textsuperscript{-} exchange mediates recovery of pH\textsubscript{i} from alkalosis in guinea-pig ventricular myocytes. Am J Physiol Heart Circ Physiol 267:H85-H91, 1994

**REVIEWS**

Spitzer KW, Bridge JHB and Barry WH: Action potential generation in heart cells. Invest Radiol, 21-10:819-825, 1986

Vaughan-Jones RD and Spitzer KW: Role of bicarbonate in the regulation of intracellular pH in the mammalian ventricular myocyte. Biochem Cell Biology 80: 579-596, 2002

**BOOKS**

None.

**BOOK CHAPTERS**

**ABSTRACTS**

3) Spitzer KW and Hogan PM: The effect of manganese on canine Purkinje and ventricular myocardial cells. The Physiologist 16(3):462, 1973

4) Hogan PM and Spitzer KW: Effects of manganese on potassium conductance in canine Purkinje fibers. The Physiologist 17(3):249, 1974

6) Spitzer KW and Hogan PM: HCO$_3^-$ and pH induced changes in action potential duration of cardiac Purkinje fibers. Fed Proc 38(3):416, 1977

10) Steinhaus BM, Spitzer KW and Burgess MJ: Conduction delays as revealed by activation pattern. In Abstracts of Papers at the Banff Satellite Symposium on Cardiac Muscle, 1986

12) Bridge JHB, Spitzer KW and Ershler PR: Voltage dependent relaxation in voltage clamped guinea pig cardiac myocytes. Circulation 76-IV:473, 1987

13) Bridge JHB and Spitzer KW: Sodium-calcium exchange can mediate voltage dependent relaxation in guinea pig ventricular myocytes. Biophys J 53:436a, 1988

14) Bers DM, Bridge JHB and Spitzer KW: Intracellular (Ca) changes during rapid cooling contractures in guinea-pig ventricular myocytes. J Physiol (Lond), 407:133P, 1988

15) Bridge JHB and Spitzer KW: Separation of inward Ca current (I$_{Ca}$) and inward Na-Ca exchange current (I$_{NaCa}$) in isolated guinea pig ventricular myocytes. Biophys J 55:294a, 1989

18) Bridge JHB, Spitzer KW and Smolley J: The voltage dependence of inward Na-Ca exchange current (I$_{Na-Ca}$) measured at elevated [Ca$^{2+}$]$_i$ in guinea pig ventricular cells. Biophys J 57: 11a, 1990
19) Spitzer KW, Skolnick RL, Bridge JHB and Walker JL: Effect of pH$_i$ on resting tension in cat ventricular muscle. Biophys J 57:140a, 1990

20) Bridge JHB, Smolley J and Spitzer KW: Voltage and time dependence of inward Na/Ca exchange current in guinea pig ventricular cells. J Gen Physiol 96:40a, 1990

21) Chin TK, Spitzer KW and Bridge JHB: Activation of electrogenic Na/Ca exchange during twitches in isolated guinea pig ventricular cells. J Gen Physiol 96:40a, 1990

22) Chin TK, Spitzer KW and Bridge, JHB: Changes in the amplitude of Na-Ca exchange current following twitches in guinea pig ventricular cells. Biophys. J. 59:544a, 1991

23) Spitzer KW and Bridge JHB: pH$_i$-induced changes in ventricular myocyte length. Biophys. J. 59:468a, 1991

30) Levi AJ, Spitzer KW and Bridge JB: Evidence that Ca entry on the Na-Ca exchange is able to trigger Ca release from the sarcoplasmic reticulum (SR) and phasic contraction in ventricular myocytes isolated from the guinea-pig heart. J Physiol 459:405, 1993.

39) Skolnick RL, Litwin SE, Spitzer KW: Reduced sensitivity of Na/H exchange to ATII in surviving myocytes from infarcted hearts. J Mol Cell Cardiol. 28(6): A166, 1996

42) Spitzer KW, Cordeiro JM, Ershler PR, Giles WR, Bridge JHB: Confocal microscopy reveals that calcium transients in Purkinje myocytes are initiated at the cell periphery. Circ 96(8):1312, 1997

47) Ryan K.D. and Spitzer KW: Endothelin-1 effects on Na/H exchange are mediated by a BQ123 insensitive receptor and PKC independent pathway in ventricular myocytes. Biophys J 76:A221,1999.
