The Department of Family and Preventive Medicine presents:

David Satin, MD

“A Case for Medical Students as Scribes: Ethics, Law, and Policy of EMR Documentation”

May 3, 2018
12:00 PM - 1:00 PM
HSEB 2120

Please RSVP to dfpmevents@hsc.utah.edu by Monday, April 30.
David Satin, MD is a practicing, academic physician, in the University of Minnesota Medical School’s Department of Family Medicine and Community Health. Within the medical school, he directs the core courses in Ethics, Law, Policy, Healthcare Finance, and Quality Improvement. Dr. Satin sits on several AMA workgroups designing performance measures for CMS, and is a national speaker on performance based incentive programs. Dr. Satin chairs the Risk Adjustment and Segmentation Committee of Minnesota Community Measurement, the statewide clearinghouse for clinical performance measurement. His website, p4presearch.org keeps up to date syntheses of the literature on performance based incentive programs. Over the past decade, p4presearch.org has been accessed in over 100 countries by individuals, healthcare industries, and medical schools. He continues to conduct research in novel models of risk adjustment, most recently leading Minnesota’s multi-stakeholder Quality Measurement Enhancement Project. This community-university partnership works to integrate social determinants of health into existing and future clinical quality measurement.

Dr. Satin currently serves on the University of Minnesota Medical Center’s Medical Executive, as well as on the Boards of the University of Minnesota Department of Family Medicine, Stratis Health, and the Minnesota Alliance for Patient Safety. He was recently appointed to the Minnesota Department of Health’s Statewide Quality Reporting System Framework Project Steering Team.

Dr. Satin completed a postdoctoral fellowship at the University of Minnesota’s Center for Bioethics following his residency at the University’s Department of Family Medicine and Community Health, medical school at the University of Western Ontario (Canada), a Robert Jones Scholarship in Philosophy to the University of St. Andrews (Scotland), a philosophy degree from the University of Western Ontario, and a health sciences degree from Marianopolis College in his home town of Montreal, Canada.
