Global Health Ghana
Professional Growth
INTERPROFESSIONAL EXPERIENCE

- Interact with colleagues and Master of Public Health students from the Ensign College of Public Health
- Interact with community leaders living in Ghana
- Fine-tune and develop communication and collaborative skills
- Forge lifelong friendships
INTERACTION WITH DIVERSE POPULATIONS

• Develop a greater understanding of populations outside of Utah and the U.S.

• Become more sensitive to cultural differences
PERSONAL AND PROFESSIONAL GROWTH

• Expand knowledge of global public health
• What role to play in the future of healthcare and global public health
• Introduction to a different norm and experiences outside of comfort zones
Jr. Global Scholars
Research Projects
BACKGROUND

Goals:

• Cultural, social, and health issues facing Ghana
• Public health issues (ID, nutrition, water & sanitation)
• Assist with data collection for a field work project
KPONG & RURAL VILLAGES

• Current & Past Research projects

The 2019 research projects we will be doing in Ghana include:
• Explore health system strengthening activities with Kpong clinic staff and local providers
• Survey research with residents of area high schools and rural villages
• Environmental sampling to assess water quality and potential for antibiotic resistance

Past Research Projects
• Survey research of growth and nutrition in children 0-18 years old in rural villages
• Survey research of lifestyle in high school students in (Kpong, Ghana)
• Qualitative interviews of women’s health and breast cancer screening (Kpong, Ghana)
• Water sample collection and assessment of quality (Kpong, Ghana)
Health2Go
Community Assessment Surveys

Health 2 Go employs the approach of bringing the health system to people in their communities.
