MSPH Defense
Date Approval Form

**The last day a student can defend their project is two weeks before the last day of finals week. Before the student can schedule their final defense, they must submit their final draft and PowerPoint slides to their entire committee for approval. This form provides consent that the supervisory committee has received the student’s final draft and PowerPoint slides, and that the final defense has been set.

**If a student is doing a thesis instead of a project, they must adjust the dates set by the Division to account for the deadline set by the Thesis Office for thesis submission. Please see the graduate school calendar for more information and deadlines.

This is to certify that ____________________________________ (name) successfully received approval from his/her committee to defend their research project/thesis on _________________(date) at _________________ (time)

The following committee members have agreed to these arrangements:

(printed name) (signature)

Chairperson: ____________________         ________________________
Committee member:_______________         ________________________
Committee member:_______________       ________________________

Date: __________________________
