Public Health is a broad, multi-disciplinary field. A bachelor's degree opens the door for entry level opportunities in areas such as health education and promotion, and environmental health. A master's degree is typically required for management, administration, research, policy development, biostatistics, and epidemiology.

There are over 500 U Public Health alumni on LinkedIn. Here is a snapshot of top 10 industries.

- Healthcare: 152
- Research: 90
- Education: 70
- Community & Social Services: 50
- Program Management: 43
- Operations: 38
- Consulting: 26
- Entrepreneurship: 19
