Vice President’s Clinical and Translational (VPCAT) Research Scholars Program

-- Final Program Evaluation --

The VPCAT Research Scholars Program is continually looking for new ways to strengthen its quality and value. By providing your personal feedback and ideas on “what works” and “what does not work,” we will be able to better focus resources on the essential components of the program that will be most beneficial. Your evaluation will offer us opportunities to showcase the effectiveness of the program to our funders and to improve program personnel’s frontline practices and mentorship.

Please provide an answer for each question. Your feedback, ideas, and opinions are important to the future success of our program!
