Heidi D. Nelson, MD, MPH, MACP, FRCP

“Effectiveness of Health System Interventions to Increase Breast and Cervical Cancer Screening in Disadvantaged Populations”

Thursday, December 12 at 8:00 AM ● HSEB 2120

A light breakfast will be served

RSVP to sharla.watts@hsc.utah.edu

Heidi D. Nelson, M.D., M.P.H., M.A.C.P., F.R.C.P. is Professor and Vice-Chair of the Department of Medical Informatics and Clinical Epidemiology and Professor in the Department of Medicine at Oregon Health Science University, and Director of Scholarly Projects in the School of Medicine. Since 1998, Dr. Nelson has been a principal investigator in the Pacific Northwest Evidence-based Practice Center leading systematic evidence reviews for the US Preventive Services Task Force, National Institutes of Health, US Department of Health, and many others. Her work has led to multiple national clinical screening and prevention recommendations and practice guidelines affecting millions of women. Dr. Nelson’s research on effectiveness of interventions in disadvantaged populations was funded by AHRQ for the 2019 National Institutes of Health Pathways to Prevention Workshop on Achieving Health Equity in Preventive Services.
