DAVID J. GREEN, MD
1945-1997

Following his graduation from Brigham Young University, Magna Cum Laude, David Green entered the medical school class of 1973 at the University of Utah. He was elected class president and his academic achievements earned him membership in the prestigious Alpha Omega Alpha honor society.

He pursued his internship in pediatrics in the military at Wilford Hall Medical Center in San Antonio, Texas, and subsequently returned to the University of Utah for completion of his residency and fellowship in pediatrics. David joined the faculty in the Department of Pediatrics in 1983 and advanced to the rank of Associate Professor in 1990.

For 17 years, David was Medical Director of the Utah State Development Center. Within the Department of Pediatrics, David was Director of Adolescent Medicine in the Division of General Pediatrics. At the University Hospital, he developed the Adolescent Unit and at the time of his death was Co-Medical Director of the hospital’s Adolescent/Pediatric/Community Medicine Unit.

In recent years, David’s academic interests focused increasingly on ethical issues in medicine. He obtained a Certificate in Professional Ethics from the Department of Philosophy at the University in 1984 and was a founding member of the Department of Internal Medicine’s Division of Medical Ethics in 1989. He was the course director and principal architect of the medical ethics course for fourth-year medical students. David also chaired the University Hospital Ethics Committee from 1985 until his death. His sensitivity and insight and his appreciation for the complexity of individual cases made David a skilled consultant and teacher of medical ethics. His memory will live on with us as we continue the important work to which he was so faithfully dedicated.

DAVID J. GREEN, MD, MEMORIAL LECTURE SERIES

2019  Jeffrey R. Botkin, MD, MPH
“Biobanking Newborn Bloodspots: Henrietta Lacks Revisited”

2018  Douglas S. Diekema, MD, MPH
“When Parents and Providers Disagree: Understanding and Responding to Conflicts in the Care of Children”

2017  Mary E. Fallat, MD
“Difficult Decisions, Disclosure, and Personal Coping in Pediatric Termination of Resuscitation”

2016  Jeffrey Brosco, MD, PhD
“Justice and Child Health: The Obligations of Pediatric Clinicians”

2015  Mark Mercurio, MD, MA
“Ethical Decision-Making in the Setting of Extreme Prematurity”

2014  Alex R. Kemper, MD, MPH, MS
“Peer Reviewed Publication: Lessons from Pediatrics”

2013  Alice Dreger, PhD
“Surgical ‘Normalization’ for Children Born with Atypical Genitalia: Controversies, Consensuses, and the Constant Cultural Conundrum”

3rd Floor Auditorium
Primary Children’s Hospital
8:00 – 9:00 a.m.

The 23rd Annual David Green Memorial Lecture

“Establishing Goals of Care and Ethically Limiting Treatment”

Armand H. Matheny Antommaria, MD, PhD, FAAP
Director, Ethics Center
Lee Ault Carter Chair of Pediatric Ethics
Attending Physician, Division of Hospital Medicine
Cincinnati Children’s Hospital
Associate Professor, Department of Pediatrics,
University of Cincinnati, College of Medicine
Armand H. Matheny Antommaria, MD, PhD, FAAP

Dr. Antommaria received his MD from Washington University School of Medicine and his PhD (religious ethics) from the University of Chicago Divinity School in 2000. He completed his pediatric residency at the University of Utah School of Medicine in 2003. He moved to Cincinnati Children’s Hospital Medical Center in 2012 to become the director of its Ethics Center and the Lee Ault Carter Chair in Pediatric Ethics.

Prior to joining Cincinnati Children’s, Antommaria was chair of the Ethics Committee and Ethics Consultation Subcommittee at Primary Children’s Medical Center in Salt Lake City. He also was an associate professor of pediatrics in the Division of Inpatient Medicine at the University of Utah, as well as an adjunct associate professor in the Division of Medical Ethics and Humanities. Antommaria has published in journals, including JAMA and the Hastings Center Report, on organ donation after circulatory death, critical care triage and other ethical issues. He also is the lead author of two AAP policy statements and first author of the chapter on ethics published by the Task Force for Pediatric Emergency Mass Critical Care.

Dr. Antommaria has extensive experience as a clinical ethicist. He has chaired hospital ethics committees and directed clinical ethics consultation services. His research focuses on issues related to his clinical and administrative work such as donation after circulatory death and ventilator triage.

Dr. Antommaria is active in professional organizations including having completed a term on the American Academy of Pediatrics’ Committee on Bioethics and serving on the American Society of Bioethics and Humanities’ Clinical Ethics Consultation Affairs Committee.

Dr. Antommaria is also an experienced hospitalist. He cares for both previously healthy children and children with complex chronic conditions who require hospitalization.

Presented by: Intermountain Interprofessional Continuing Education, and the Department of Pediatrics, and the Program in Medical Ethics and Humanities at the University of Utah School of Medicine.

December 4, 2019

Evening Ethics Discussion

“Patients, Parents, and Professionals: Ethical Issues in the Treatment of Trans Adolescents”

(5:30-7:00 pm)

Research Administration Building – 1st Floor Conference Room

December 5, 2019

Welcome and Introduction

Gretchen Case, PhD, MA
Chief, Program in Medical Ethics and Humanities
University of Utah School of Medicine

Pediatric Grand Rounds Lecture

“Establishing Goals of Care and Ethically Limiting Treatment”

Armand H. Matheny Antommaria, MD, PhD, FAAP

Primary Children’s Hospital and the Program in Medical Ethics and Humanities with the Department of Pediatrics at the University of Utah School of Medicine would like to gratefully acknowledge the Medical Staff Office at Primary Children’s Hospital for their generous support of the Annual David Green Memorial Lecture.
