

### Checklist of Requirements: Pediatric Clinical Research Minor

#### Prerequisites for the minor:

1. Student has minimum 2.0 GPA to be admitted & retained in the minor.
2. Must be a junior or senior. Students with a freshman or sophomore may still be considered, based on their application.
3. Student must attend advising prior to their application for PED 5900 being accepted. They can either sign up for group advising or schedule a one-on-one advising session with a Program Coordinator.

#### Course requirements for minor:

1. Complete core courses – PED 5900, PED 5901, and PED 5902
2. Earn at least 16 credits towards the minor for completion.

\*To attain the required 16.0 credits for the minor, students may elect to take PED 5900/5901 for additional credits, or take one of the following elective courses: PED 5700/5950/5999/5600

\*\*Course descriptions can be found on the Academic Associate website, at:

[https://medicine.utah.edu/pediatrics/research/education/academic\\_associate\\_program.php](https://medicine.utah.edu/pediatrics/research/education/academic_associate_program.php)
